“More than an end to war,  
we want an end to the beginnings of all war.”

~ **Franklin Roosevelt**

There is currently a bill before the U.S. House of Representatives (H.R. 808) to establish a United States Department of Peace. This historic measure will augment our current problem-solving options, providing practical, nonviolent solutions to the problems of domestic and international conflict.

Domestically, the Department of Peace will develop policies and allocate resources to effectively reduce the levels of domestic and gang violence, child abuse, and various other forms of societal discord. Internationally, the Department will advise the President and Congress on the most sophisticated ideas and techniques regarding peace-creation among nations.

Momentum is building, yet the legislation will pass from bill to law under one condition: that a wave of citizen interest rise up from the American people and make itself heard in the halls of Congress. That is why we need your support! Please read the back to find out how you can become involved!

*"Few will have the greatness to bend history itself, but each of us can work to change a small portion of events, and in the total of all those acts will be written the history of this generation. It is from numberless diverse acts of courage and belief that human history is shaped. Each time a man stands up for an ideal, or acts to improve the lot of others, or strikes out against injustice, he sends forth a tiny ripple of hope, and crossing each other from a million different centers of energy and daring, those ripples build a current that can sweep down the mightiest walls of oppression and resistance."*
